CE CERTIFICATION

Safety is the first rule, especially for those traveling by motorcycle.

This is why Franzan Design is careful to follow not only the aesthetic, but also the needs of the consumer and the regulations imposed by institutions of type approval.

A specific team follows everything that concerns details and fitting, using not mannequins, but real models, thanks to which they guarantee a true check of the garments, offering the customer the best in design, innovation and comfort.

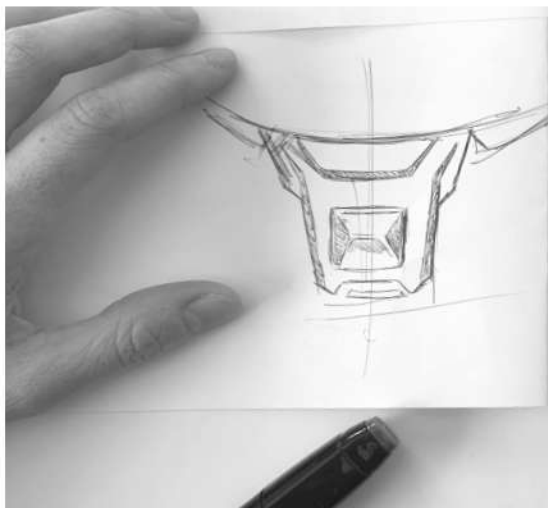

As for the new European regulations in force on PPE (PR EN 17092), our studio is focused to ensure and obtain the CE certifications of the products it creates, to offer consumers maximum safety when traveling on motorcycles.

A detailed line drawing of a multi-sports helmet, showing the shell, chin bar, and various ventilation ports. The drawing is rendered in a light gray color on a white background.

MULTI SPORTS
HELMET DESIGN

HELMETS AND PROTECTION SYSTEMS

Franzan Design is well specialized in the helmet field, the first individual protection system for the motorcyclist, but not only, it's mainly used in the bicycle and automotive sectors.

In addition to developing decals for the major brands, we are always in step with the new homologation standards, in fact the general development process starts from the first mood research, passing to initial sketches, then moving onto 3D Design renders, with the rapid prototyping of some components or the mock up of the entire piece.

Franzan Design during the technical process, is always careful to follow all the standard and specific regulameantation imposed by the new ECE 22.06, offering consumers maximum safety and good design.

SOFT LUGGAGE

BAGS / TECHNICAL LUGGAGE AND ACCESSORIES

For some of our most important customers, the core business is the luggage in all its forms, from the technical bag or trunk for the motorcycle, to the backpack for the city or camel bag for adventurous travel.

In any case, and for every need, the experience of Franzan Design allows you to create innovative products specifically dedicated to the needs of the target audience, with an engaging but always functional design.
